

# HD54: Hardwood Folding Firearm/Bow Rack Assembly Instructions

*Please read before use and follow instructions by numbers.*

## Included in this box:

(Hardware: 13 flat-top wood screws, 2 round-top wood screws, 2 bolts, 2 brass washers, 2 wing nuts and a tube of glue.)

## HOLDUP DISPLAYS

Apply a thin line of glue from hole to hole on one side of the contact surface of parts A, B, C & D shown in steps 1, 2 & 3.

**1)** Use a Phillips screwdriver to attach the B piece to the A pieces using the pre-drilled holes & flat-top screws. Be sure to keep the T-nut flange facing outward as shown above.

**2)** Attach the C piece to the flat end of the A pieces, using the pre-drilled holes & flat-top screws. Be sure to keep the beveled holes facing outward as shown above.

**3)** Attach the E piece to the pointed ends of the D pieces, using the pre-drilled holes & flat-top screws. Be sure to keep the larger, beveled hole facing outward as shown above.

**4)** Attach the F piece to the flat end of the D pieces, using the pre-drilled holes & round-top screws. Be sure to attach the E piece with the padded cradles on the upper side of the rod, as shown above.

**Completed  
Floor Stand**

**5)** Attach the assembled top unit to the assembled bottom unit using the provided bolts as shown above.

**6)** Secure these bolts into place using the provided brass washers and wing nuts. Be sure to place the brass washer first.

**7)** To lock the stand in upright position & prevent unwanted folding, drive the remaining flat top screw into the single, beveled hole on the lower left side of the rack. This screw can be removed to allow for folding.
