

Item#: HD66-P-FW

2-Pistol Tree-Flatwall Display

Assembly Instructions

1) Attach the bars into the HDTK: Aluminum Display Track with the t-nut inside the track and the washer between the track and the bar as shown. Once set at desired height, tighten bolt until snug.

2) Place rubber cap on bolt.

3) Squeeze together open end of base and slide track onto upward pegs.

Choose location for hanger. Drive screws through mounting holes of hanger into wall using a Phillips screwdriver. If a wall stud is not found, these pilot holes are necessary for installing the drywall anchors. To do this, use the screwdriver to push and turn the anchor clockwise until flush. Remount hanger with screws into anchors. **DO NOT REUSE ANCHORS.**
