## Locking Firearm Display

### Assembly Instructions

**WARNING!! ALWAYS CHECK CHAMBER BEFORE HANDLING FIREARM TO ENSURE THAT IT IS EMPTY. NEVER LOCK OR DISPLAY A LOADED FIREARM.**

1) Choose a location for the display.

2) Drive screws through mounting holes into drywall using a Phillips screwdriver.

**Note:**

*If the screws hit a wall stud, you won't need the drywall anchors and you can skip to step 6.*

3) Remove screws from wall.

4) Place anchor on the end of the screwdriver then press and turn it into hole left by screw until it is flush with the wall.

5) Mount plate to anchors using screws.

**Repeat steps 1-5 to mount the barrel support.**

**To Secure Handgun to Display:**

6) Turn key to remove bolt from lock.

7) Remove key from bolt.

8) Press bolt through trigger guard and into lock until the firearm is completely immobilized.

Complete with a genuine

Drywall Anchors
