5 Handgun Track Display

Bar & cradles pivot to accommodate different styles of firearms.

FIGURE 1

Attach the bar into our Aluminum Display Track (HDTK) with the t-nut inside the track and the 2 washer between the track and the bar as shown above in FIGURE 1. Once set at desired height, tighten bolt until snug.

ALUMINUM DISPLAY TRACK
ASSEMBLY INSTRUCTIONS

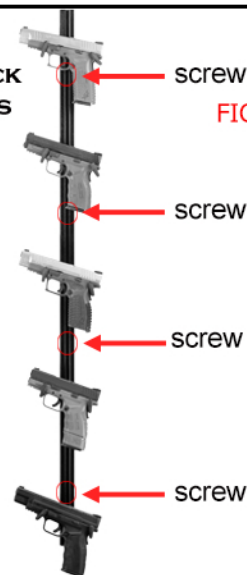

FIGURE 2

Choose a location for display. Pre-drill 5/32" holes at approximately 3" and 17" from each end of the track (4 holes total), as shown above in FIGURE 2. Drive screws through pre-drilled holes of track into wall using a Phillips screwdriver. If a wall stud is not found, these pilot holes are necessary for installing the plastic drywall anchors. To do this, use the screwdriver to push and turn the anchor clockwise until flush. Remount track with screw into anchors. DO NOT REUSE ANCHORS.
